

Dental Implants

Periodontal Care, P.A.
Healthy Gums, Healthy Heart

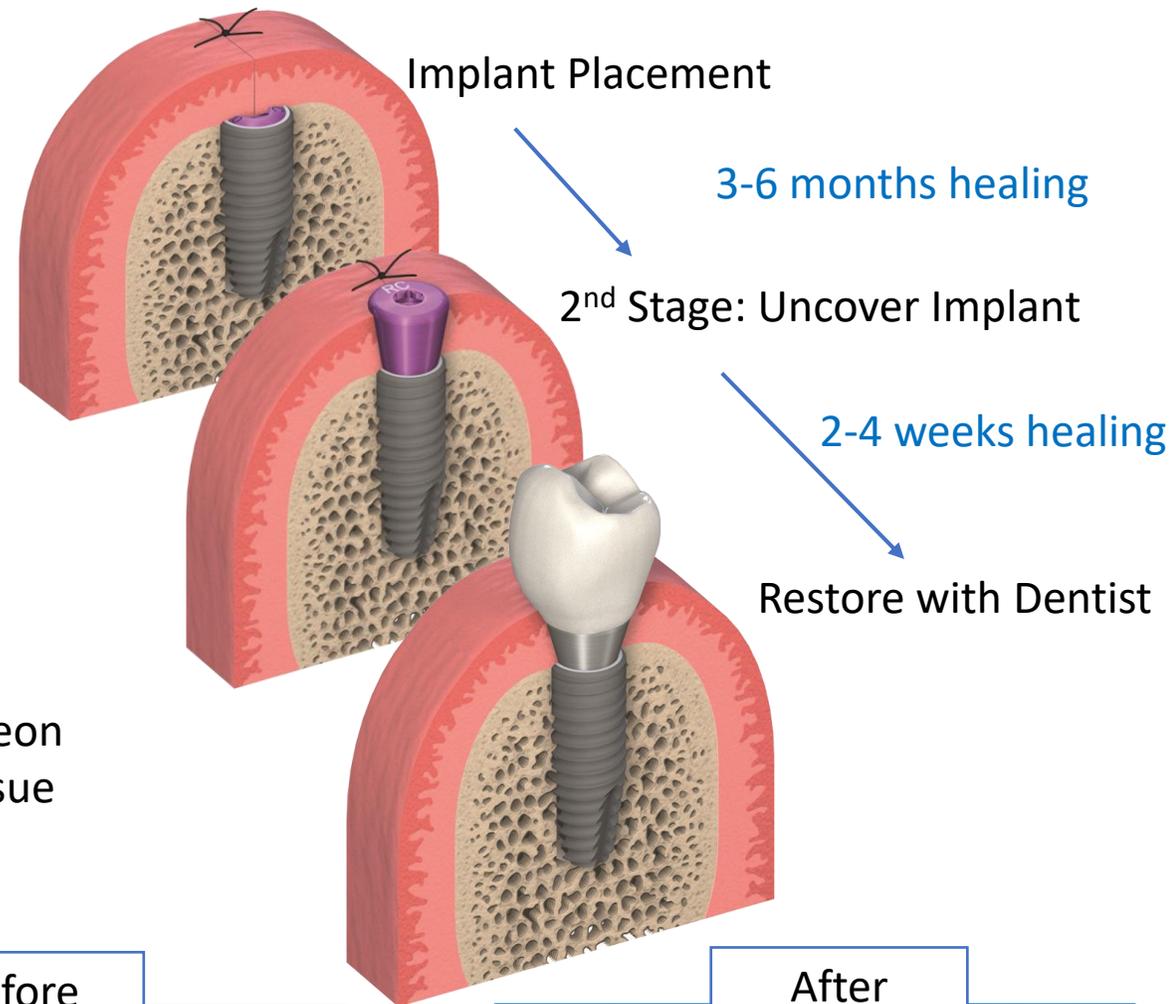

Dental Team

Your Dentist will work with us to “restore” your Dental Implant with a tooth. This consist of an **ABUTMENT & CROWN**

Surgical Team

In addition to placing the **Dental Implant** (Titanium Screw), the surgeon will also build up bone and gum tissue when needed

Not all Dental Implant cases are the same. As a result, the time and expense involved increase as the complexity increases.

Back Tooth
Single Implant
Adequate Bone/Gums
No Temp needed

Front tooth
Multiple Implants
Needs Bone Graft/ Gum Graft
Temp needed
